CUSTOM HIRING CENTRE

CASE STUDY BOOK

CUSTOM HIRING CENTRES (CHC'S)

A Custom Hiring Centre (CHC) is a convenient, one stop solution for farm equipments owned and managed by community based organizations like FPOs/MS/VOs with an objective to meet the local needs of the women farmers and with an intension to drudgery reduction.

The centre comprising a set of farm machinery, implements, tools and equipment meant to be rented in primarily by small and marginal farmers, women and agriculture labour. CHCs Enhance access to good tools, implements, draught power and machinery services for ensuring quick response and timely operations: land preparation, sowing, inter-cultivation, other crop management, harvesting and post-harvesting specific to existing cropping pattern of the cluster. It is proposed to establish the CHCs at mandal level to serve a cluster of villages.

It is being envisaged that an adequately managed CHC should be a self-sustaining business model. From the rental revenue it generates, the manager of the CHC would be able to earn an income, the equipment can be maintained/ repaired/ replaced, and further resources can be procured for the users as per need and requirements. The objective is to keep the inventory of

equipment such that there is optimum usage of the equipment during the season, without letting it remain idle.

The ownership of the CHC is vested with the CBOs/FPOs and the day today operations of the CHC may be entrusted to one of the professional (manager- incentive based) for smooth operation and sustenance of the revenue model. The equipment is rented out by the FPO/CBOs. Also Proper grievance redressal mechanism is in place. Set of registers and accounting procedures will be maintained at CHC centre to ensure the transparency and tracking the equipments

During the year 2020 – 21 SERP has sanctioned 32 CHCs under NRLM (National Rural Livelihoods Mission) one in each district. seeing the response Stree Nidhi has come forward to sanction from Stree Nidhi. Till now they have sanctioned 26 CHCs and they have agreed to sanction to all viable proposals which may be around 100.

Procurement of equipment:

Standard community procurement norms are followed by forming procurement committee with District Collector / Additional Collector as Chairman DRDO, DRDA as Convener ,District Agriculture Officer (DAO), District Horticulture Officer – Member, FPC / MS – One Board of Director / President as members.

Renting of Equipment:

The equipment owned by the CHC would be rented/leased out by the FPO / MS: In this, the concept of differential pricing would be applicable to FPO member and non-members. The rental value per day for the equipment would be decided upon by the FPO / MS board and it would be formalised by passing the resolution.

The housing of the CHC and storage of equipment:

The Housing /storage of the Equipment are ensured with proper well-secured doors and windows and adequate lock and key mechanism with protection from rain and large enough to move equipment in and out of the CHC with Provision of electricity.

CHCS SANCTIONED ACROSS TELANGANA
