The debtor is a financially socially developed and living in society as a whole .Thus they are living well and educated for their children.

Mouchi Munibai October 2000, belonging to the poverty-stricken Mokhi family, joined the women's community in the Gopal Peet Village Society. Before joining the community, it also encountered days of livelihood or family affairs. Subsequently, neighbors and Anganwadi workers recognized the family's affliction and joined the women's community. After joining the community, he started taking small loans and started working at home with his caste slogan. Subsequently, the auto loan was taken by auto loan to any worker or vacant husband. The family's financial situation improved. Commission members and staff aikepi setter at the instance of the shoe shop strinidi bastand began with an orb in the center. With the revenue expenditure of around 20,000 / - the income of the family was completely out of poverty and came into revenue. With this the auto driver is running a shop where the shop is running. And contributing to the Son's overlap. As well as the death of his mother and mother, the children of the orphans are also playing. The house was bought by the family as financially improved. And bought the plot. In this way the family members of the women's community used the state medals and pushed out of poverty and lived in the village dignified by the family and became a model for the poor.
